

ACTISWEEP V7-1800 HEAVY DUTY FORKLIFT BROOM

The V-Concept Actisweep V7 is a patented design forklift broom with impressive sweeping ability, aggressive cleaning power and interchangeable high-quality brushes. The V-shape bristle design ensures maximum sweeping efficiency.

The extra heavy-duty steel powder coat frame and electro-galvanised forks ensure the broom will be tough enough for your most demanding applications. Sweep or move grain, fertiliser, crushed materials, waste recycling materials, wood shavings, bark, building materials, gravel, coal, sludge or snow. Heavy-duty polypropylene bristles have a long service life of 1000km.

APPLICATIONS

SPECIFICATION

PRODUCT CODE	PRODUCT CODE	DIMENSIONS	FORK POCKET CENTRE (MM)	FORK POCKET SIZE (MM)
ACTISWEEP V7-1800	25981036	1840 (w) x 500 (d) x 240(h)	572	200 x 60

FEATURES

- The V7 sweeper has a unique V-Concept® patented system that improves sweeping efficiency
- The orientation of the brushes in the shape of a “V” allows to gather the sweepings in the center of the sweeper and to remove the swaths which forced to cross the passages.
- 7 rows of solid polypropylene bristles 240 mm high including: 3 straight rows at the back, 2 rows forming a “V” at the front to accumulate waste in the center, and 2 small rows at the tip of the “V” to create a more homogeneous waste distribution and avoid the accumulation of sweepings.
- Very easily interchangeable brushes.
